The average and the largest entry are given together on purpose: a total made of one large payment and nine small ones reads very differently from ten even ones, and the average alone cannot tell the two apart.

By category

Largest first. Share is of the total above, so these add to 100% of what this report covers — not of all expense.

How the money moved. An entry with no method recorded is shown as such rather than folded into cash, because the two are not the same thing to anyone reconciling a bank statement.
